Renew your favourite sofa

KLIPPAN is a popular classic. It has durable metal springs, which give the sofa its springy comfort, and a design and price that match most homes and wallets. The fabric sofa comes with the frame unassembled, making the package smaller and easier for you to transport home. Most of the covers are washable and sold separately – you may want to buy a few so you can change whenever the mood strikes you. The coated fabric sofa has a fixed cover and comes fully assembled in one package.

Sofa for everyone

The durable metal springs give the sofa its springy comfort and ensure the seat will have a long, full life. If you want extra cosy moments in KLIPPAN, add pillows, blankets – and whatever else you like.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.co.id for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

GOOD TO KNOW

Our fabrics have been tested

At IKEA we test the fabric covers on our sofas and arm-chairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home – and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibers. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

| | Washing instructions | Resistance to abrasion (cycles) | Light fastness (0-6) |
|----------------------------------------------|---------------------------|---------------------------------|----------------------|
| VISSLE: Melange plain weave. 100% polyester. | Machine washable at 40°C. | 50,000 | 5 |
| SANGIS: Printed cotton fabric. 100% cotton. | Machine washable at 40°C. | 25,000 | 5 |
| KABUSA: Plain weave. 100% polyester. | Machine washable at 40°C. | 25,000 | 5 |

ALL PARTS AND PRICES

BOMSTAD coated fabric: Fixed cover in cotton and polyester, coated with acrylic and polyurethane. Easy for you to keep clean by just vacuuming with the soft brush attachment and wiping with a damp cloth.
