### You choose the style

When you buy POÄNG armchair you choose everything yourself, except the comfort – it's always included! You get a style that's all your own by freely combining frames in different wood types and finishes and cushions with fabric or leather covers. If you want a change, you can always buy an extra cushion – they come with covers in several different colours, patterns and materials. The fabric covers are removable and most are machine-washable.

### Comfort in harmony

Design and comfort meet in POÄNG armchair like two parts of a whole. The layer-glued, bentwood frame follows the contours of your body and supports your neck and lower back. The material in the frame gives the chair a light, pleasant and relaxing springiness. Complement with the footstool, specially designed to ensure you sit in a comfortable position. If you want to really rock, choose the rocking-chair in the same series.

# GOOD TO KNOW

## Our fabrics have been tested

At IKEA we test the fabric covers on our sofas and arm-chairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home – and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

## Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibers. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.
