

# Bathroom showers

## DESIGN

H Preutz/N Karlsson

## CARE INSTRUCTIONS

Clean with a soft cloth dampened with water and a mild washing-up detergent or soap. Never use scouring powder, steel wool or a detergent that is calcium-dissolving, sour or contains alcohol or an abrasive. Rinse with water and dry/polish with a clean dry cloth. To remove larger limescale deposits – use diluted, ordinary white vinegar and rinse with water.

## GOOD TO KNOW

Wall fittings are provided with the product. If you are uncertain about the installation, contact a professional. The installation shall be made in accordance with valid local building and plumbing regulations.

## SAFETY

The thermostatic mixer is pre-set to a safety stop temperature of 38 °C. Since operating conditions in each supply system varies, it might be necessary to calibrate the mixer according to the service and installation instructions.

## Everyone deserves a refreshing shower

The IKEA showers are fully coordinated, with everything you need for a great shower experience: thermostatic mixers with anti-scald feature, head and hand showers with different spray functions and bathroom accessories, all in the same family. All IKEA showers are equipped with water and energy-efficient shower heads and hand showers. This is achieved by having a flow regulator, which reduces the water flow. You'll save up to 30% water and energy compared to a shower without a flow regulator. Everyone deserves a refreshing shower experience every day. And what can be more revitalising than knowing you can save water (and money on your water and energy bills) at the same time? Just pick and choose the shower function you need in your bathroom.

All the products (shown here) may not be available at the store. Please contact the staff or look at [www.IKEA.com](http://www.IKEA.com) for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

# HOW TO CHOOSE

1. Here are a few practical steps to help you choose the right product for a great shower experience. Before the purchase consider what shower needs you have in your bathroom. Do you need to refresh an existing shower set? Then you may choose either a riser rail with hand shower kit or a head/hand shower kit with diverter. All IKEA shower kits are compatible with any shower mixer of another manufacturer. The shower series come in 3 different families - VALLAMOSSE, BROGRUND and VOXNAN just pick the one that suits your style and bathroom best.
2. If you plan to change your shower mixer you can choose between a thermostatic shower and a bath/shower mixer depending on the shower solution in your bathroom. The bath/shower mixers work well both with bath tubs as well as with shower walls. VALLAMOSSE, BROGRUND and VOXNAN shower series offer a wide range of thermostatic mixers that will suit your needs perfectly. All our mixers are fitted with integrated shelves, 38°C safety button and most importantly all our mixer bars come with anti-scald technology and thanks to "cold touch" feature our mixers are safe to touch during use even for the smallest ones in the family.
3. In case if you want to revitalise your existing shower you can choose to change the hand shower or the shower hose. IKEA shower series offer a wide variety of hand showers that come with different spray functions. You can choose between 1,3 and 5 spray function heads. The hand shower with full spray function gives a wide and even coverage for a relaxing shower experience. The mesh spray function boosts the force of the water spray which is perfect for rinsing thick hair. The massage spray function varies the water flow from soft to hard for an invigorating experience that takes away the tension. The mist spray function produces fine droplets of water that feel gentle, soft and relaxing. On 3-spray hand shower you can choose between full spray or mesh spray or you can combine the two, giving you the best of both worlds. With the 5-spray hand shower you can choose between full, mist or massage sprays, or choose your favorite combination of full/mist or full/massage, giving you even more alternatives for a relaxing shower.
4. Finally, if you are planning to update your entire shower area then you can choose one of the IKEA thermostatic shower sets that includes all the functions you need for a destressing and relaxing shower experience. You can complete your new shower with mixer taps and towel accessories from the same product family for a full style coordination of your bathroom. BROGRUND and VOXNAN series feature a complete range of showers, mixer taps and bathroom accessories that will make your bathroom uniquely you.
